

## Chatsworth East - Year 6 Exhibition

On the 3rd of May the whole of Year 5 went to the Chatsworth East campus to visit the Year 6 exhibition. There were a few rooms in which groups of about 4-5 people planned activities for us to do. The activities were based on the topics that the kids chose. For example: Child Abuse, Ocean Pollution, Plastic Pollution and Animal Abuse. We could also buy stuff from the stalls such as Reusable straws, bags etc.

I really enjoyed going to the East campus because the exhibition activities were really fun. I also learned a lot about exhibition which is important to me because I am in Year 5 which means I will be doing exhibition next year.

## Images of Singapore

Y3 went on a field trip to Sentosa to look at the museum, Images of Singapore. We saw what Singapore was like in the past like the fishing village, the cinema, how the Japanese invaded Singapore.

It was really interesting. We were going to Sentosa because of our unit it is about what was Singapore was like in the past. There were some things I did not know until we went to Sentosa. I did not know they lived in a village and I did not know what the cinema looked like. I loved going to Sentosa.

## Our Thoughts about Being in Writing Sleuth - Student Perspective

**Ayaka:** Being in Writing Sleuth is an opportunity for us to show other people how talented we are and how awesome we are. I love writing about how things are going and it's a really good time for me to actually cooperate with other people and not just the people I normally talk with. The first time I came in Writing Sleuth, I didn't know how to write very well. I have started writing in Writing Sleuth since the start of Year 6. I have had an exhibition which you have to cooperate and from these practices, I was able to be cooperative enough in Writing Sleuth. Being in Writing Sleuth is amazing, but also challenging as well.

**Augustine:** I think Writing Sleuth is AMAZING because we can write about whatever we like. I also like it because it is fun collaborating with other people and making a magazine for our school.

**Piper:** Writing Sleuth is very fun because we get to write things about the school year and put it in the Phoenix Times so everyone can know about it.

**Nadhira:** "Being in writing sleuth was fun for me because I learnt about new ways to write an article with partners and writing about things that we like ."

**Linh Dan:** "Writing Sleuth has been an amazing role model for me. It gives me opportunities to write an article even though I have never written one before. Writing Sleuth shows that our inner self is really talented and we can never let it go away. I hope to be in Writing Sleuth next year and I recommend it to all students of Chatsworth."

**Jacob:** "Being in Writing Sleuth was so so so so fun because we could write stuff that we all did in Chatsworth International School and the other stuff like Sports Day, cross country, netball, our country day (UN day). I liked it because we got a chance to write what we want. It was fun to talk to our friends while we do our writing. I chose Writing Sleuth because I thought that it would be so much fun and I really like writing, so that is why I chose it. Being in Writing Sleuth was super super super SUPER fun."

## ME LIKE WRITING SLEUTH!

**Chitrangi:** Being in Writing Sleuth is such fun as we get to write about our personal recounts. We can write about school/sports events, school trips, and so much more.

**Jananee:** Being in Writing Sleuth is so much fun. We have the freedom to write whatever we want, like sports events, school plays and so much more. Another great thing about Writing Sleuth is that we can talk to our friends and have fun as well as do our work and have so many people in the school read our work. This was such fun and I hope to do it again next year in the Bukit Timah campus.

**Rishav:** "Being in Writing Sleuth was really fun, especially working on different articles and working with new people. It was fun working with Ms Riemer and looking at how the final publications would look. It was fun finding out on how magazines are made and how layouts look when they're not ready yet. Looking at what I can improve and asking others on what they think about my work was great too. I liked getting to choose the subjects that we'll be working on. It was one of the most fun CCA's in the whole of Chatsworth International School!"

**Sanaya:** Being Writing Sleuth is fun especially when the article is published. We get to write different things that happened like UN day, sports day, Chatsworth got talent, all those things. I enjoyed this CCA.

**Conrad:** I love being in Writing Sleuth because we have the freedom to write about whatever we want (of course within the boundaries of the school community). I also enjoy working with people I have never worked with before. One of my favorite moments in Writing Sleuth was when we had the pizza party!

### Pizza Party

As a celebration of the publishing of the Primary Phoenix Times first edition, the writing contributors had a pizza party at lunch. Cheese and pepperoni pizzas were shared by all and the writers were grateful for the chance to celebrate. The pizza party was really awesome.

## Y6 Graduation

The Year 6 graduation is on the 7th of June. It is when the Year 6's go from Primary to Secondary. There are traditions for Chatsworth's graduation.

The first one is that the Year 6's eat outside of school with their mums and dads. The second one is that the Year 6 teachers make a slideshow with one picture of each student when they started primary school (3-4 years old.) We also have a picture of the end of primary school.

The Y6 decided to sing 'This is Me' from the greatest showman.

## Y3 Passion Projects

Every Friday Y3.3 and Y3.4 get together for passion project. We think of what we like and we turn it into a project. Everyone is making something for example Piper Hale and Cara Roberts are making an animal scrapbook, Sanaya Sengupta is making a poem about rain.

Aanya Gupta and Mia Serong are making a prank book. Everyone is having a lot of fun doing their passion projects. The word passion means what you love to do. Passion projects are a fun way to present and make something that you love. Everyone is excited to continue their passion.

*- by Sanaya Sengupta and Piper*

## Y6 Exhibition

In the end of Primary School, the Y6 did an Exhibition. This year, we had a lot of amazing projects like a humongous brain, a therapy box, a dance and more than you can think of! We inquired into:

1. Stereotypes
2. Energy
3. Drug Addiction
4. Social Media
5. Technology Communication
6. Time
7. Prosthetics
8. Food Waste
9. Racism and Xenophobia
10. Art Therapy
11. Animal Therapy
12. Explorers
13. Space
14. Another group on Stereotypes

The Year 6 students used the Main Hall, the Art Room and the Music Room. In the Music Room, we had a dance performance which was about Energy. In the Art Room, we had the prosthetics cube, the Phoenix Board, the Game, the Animal Therapy statues and journals hung from the ceiling. In the Main Hall, we had the Installation, Paintings, Art Therapy box, the Clock, the Brain and some provocations(activities).

*The Exhibition was on the 8th to the 10th of May. We hope you have enjoyed our projects.*

## Consumerism

Consumers are always wanting new things and people are not thinking about how to reduce, reuse, recycle products that already exist in their lives.

I think that people as consumers need to be mindful of what they are going buy and learn to refuse products that they don't need.

People are demanding new things but little do they know that if it keeps going they could bring the end. Not only does it make global warming worst your spending to much money on gadgets and you won't have enough money to live. They want it worst thing is when people get something new they don't recycle what they previously bought.

People are buying and buying just cause they want it. But they should keep it till it doesn't work or till it breaks. Humans are a major threat to global warming because of the gadgets people are buying.

Don't buy the first thing you see think twice before you buy and think would this hurt earth or will help global warming so the earth gets full of carbon dioxide. Don't buy a lot of things that will affect the environment. don't be one of those really bad consumers in the world they are people that get the new model of something every time it comes out even though their old one works perfectly fine. Please be a responsible consumer.

If you don't agree with me it's your choice let the world die or stop Global Warming. Please be very mindful that we could all be dead very soon if we don't stop. I don't want our world to die out because of global warming I want the world to die out of oldness or not die at all. Everybody has the right to live in this world.

## Persuasive Writing - Plastic Waste

Do you like to use plastic? If so, do you understand the damage plastic can do to our world I think that we need to take action and save a lot of animals and humans from going extinct. The world has a crisis with the amount of plastic used and this is very bad, the beaches are being polluted and the world is looking uglier and uglier by the year.

In the Ocean there is about 5 to 13 million metric tons of plastic in the sea the animals are getting much more worse than we do, the animals decrease in numbers every year and the most endangered species will become extinct. The turtles are thinking that plastic bags are jellyfish and are swallowing and choking on them, fish turtles and sharks get caught in old fishing nets and can't swim also dolphins have this problem to and are suffocating when the plastic cup holders get caught around the neck and then they can also swallow it to and if we don't stop this the fish will all be polluted and have diseases and then we can eat them and get sick too this is also happening now but we just don't notice it and that is a big problem.

Reusing is one way that we can stop using too much one-use plastic. We can reuse a lot of stuff and it can stop many animals from going extinct. Plastic bags and plastics bottles can be reused easily and if we can reuse them, we are doing the world a big favour.

Another way to help the world is by doing the fourth R the fourth R is refuse if we refuse we won't use too much plastic and you should not always use plastic bags.

I know that plastic products we use can be found everywhere, and it is so easy to use it. However plastic can be harmful to the earth that we live in and also it can take the lives of many beautiful and harmless animals. And we won't see a lot of trees that give us oxygen and sucks up the carbon dioxide to help us breath we need all this stuff please help me save our world and live a happy life.

## Racism & Xenophobia

Racism is when someone thinks someone else thinks they are superior because of their different race, nationality color and ethnicity. Racist people are people who do mean acts to others. Racial bullying is a type of racism where someone's bullying focuses on your race, ethnicity, nationality or culture.

Xenophobia means dislike or fear of foreigners. Xenophobia happens because people are to

scared to talk to others because they are from a different race. Xenophobic people are the people who are mostly bullies.

Xenophobia happen because of differences or religion. Xenophobia is bad because you are just being mean to other religions or people with different skin tone.

## Musical

### Theme: "Cinderella & Rockerfella"

This year's theme for the musical was "Cinderella and Rockerfella", The show was performed on the 25th of May and the 26th of May. The rehearsals have been going on for five and a half months. It was a big success.

There were 2 Saturday rehearsals from 10 to 3pm. It was rehearsed in the main hall and Sports Hall.

One of the things that I liked were the practices on Saturdays because we got to learn more dances and songs.

The head of the production was Mr. Jake Eades and the other head or the choreographer was Miss Serrin Smyth, They worked very hard to organise the showcase.

Everyone had so much fun and all the people who attended the show loved it

## Bukit Timah Campus

Next year, the East campus will be closed and the Bukit Timah campus will open. The Bukit Timah campus is currently being used by the German European School Singapore, but they will be moving somewhere else to a different campus. The Bukit Timah campus is a lot bigger in comparison to the Orchard campus. The Bukit Timah campus is open to Primary students as well as Secondary students, but all Secondary students have to go to the new campus.

There are many new things in the new campus, like a huge basketball court, an EY playground with many things to play with, a huge library with shelves filled with many books. There is a gigantic canteen for many students, a music room with as many instruments as you could name, and so much more!

The Bukit Timah campus is going to be huge, as well as have many things Orchard campus doesn't have. I think it will be a great campus.

## The Y4 Explorer's Magazine

The Y4 magazine was what us Y4's have been working on. We have been working on the magazine for over 5 weeks. It includes fun games, like Jumble where you basically jumble up words to a relevant subject and the consumer has to unjumble the jumbled words.

We also had games of mystery where we had to figure out what explorer profession are you? We had questions and points that if you add up it would lead to an answer. We also had articles on famous explorers including James Cook and Christopher Columbus.

Stella Berry came up the idea of having a magazine for our adventures and games that people could enjoy. Other people came and thought that it was a good idea and joined in. Over 9 people joined in the work to make it happen. Everybody was happy after it had been printed and published.

## U12 Boys Football

After our U11 football team won gold last season most of the same team was selected for the U12 football team which this time had a few Year 7s.

We went into the season with high expectations but after our first game which we lost 7-3 to the National Public School we were looking more like we were going to be underdogs this season. In our next few games we lost 8-2, 9-1, 10-3 and 13-1! We were very soon last in the division and guaranteed not to win a medal.

But we still fought really hard throughout the season and even though we lost every game we still had fun playing in this tournament with our friends and teammates.

## Book Week

In book week, we have some fun events such as the human library and the book parade.

The human library is where we can listen to a person's real life story. This year, we had Mr McCallum, a person from google, Tharunya's mother and a math teacher/scientist. It is a place where people can talk about their stories and their experience.

For the parade, we dress up as our favourite book characters and we go around the school to show what we wore and the books we chose from our favorite authors! Most of the teachers dressed up as the Lorax, the Blind Mice, Mr. Man and Little Miss Sunshine. The parade was also cool because everyone could see what we decided to dress. Most of the students dressed up as Harry Potter and Hermione Granger.

Book Week is a place where we can share what our favorite books are and know all the fantastic and interesting books in the world!

## The Netball Finals Divison 2

The netball finals were really exciting. Unfortunately for me, I was not able to participate in the netball finals because I had injured myself after the first 4 matches(the first 2 times we went to the other school- Australian International School). But I've heard from my friends (who are also in the netball team), that they won all the matches.

We had won by 12-0 the first time we went to A.I.S. I was so surprised with the score because I NEVER got a big score before!!! Congratulations for a fun season!

## Author Visit - Earth Day

1

What is Earth day about?

Earth day is all about the environment and how we treat it. An author came in and read her book out loud to the whole year 4 and lots of other year groups.

Why do we celebrate Earth day?

We celebrate Earth Day because we need to take care of the environment and all the creatures that are in it.

Why did we combine it with a book day?

We like books that remind us about taking care of the environment!

2

How important is a book day?

Very important, because books remind us if the environment was full of garbage all the animals would die and so would we. Also all the beaches would be gone!

Do we like Earth day?

Yes, we honestly do because we know how the animals feel like and so we should help them. If you like looking at the green trees, well you won't see it anymore unless you help the environment and that would be so so so sad!

## Class Representatives

What does Class Reps mean?

Class Rep means a person representing the class and sometimes the school.

What action do you have to take when you become the Class Rep?

You have to be responsible, respectful, honest, truthful, caring, principled, open-minded, communicator, with good ideas, being able to listen to good ideas, balanced, Class reps have big responsibilities and they have to be very careful to set a good example for the little kids.

The class reps (short for class representatives) starts from Year 3 to Year 6.

## The Swim Team

The swim team is a group of people who like to swim and represent the school for matches which is when they join up together as a team to go to swim for the school and to try and win games. They can win medals and sometimes even trophies.

They had competitions against many schools; Dover Court, the Chatsworth East campus, and so many more!
