Dear Parents and Guardians of incoming Years 10 through 13 students,

Re: IB Diploma Program and MYP 4 and 5 - calculators

As part your child's / ward's IB MYP 4 & 5 and IB Diploma Program mathematics courses in Years 10 through 13, they are required to have a Graphical Display Calculator (GDC) for graphing, modelling and investigation purposes. We request that you purchase the [Ti-Nspire \(Non-CAS\)](#), from Texas Instruments, since it has a higher resolution screen and built in rechargeable battery. The Mathematics teachers at Chatsworth International School have received specialized and intensive training by Texas Instruments (Singapore) consultants in using the Ti-Nspire and hence our teachers will be providing technical expertise in using this specific graphic display calculator only.

An official authorized Texas Instruments Vendor (Singapore) is listed below, however you may also purchase the same model elsewhere if you wish.

Official authorized Texas Instruments Vendor (Singapore)

www.li.com.sg

Learning InterActive Pte Ltd

The Resource Centre

Blk 231 Bain Street

#04-39 Bras Basah Complex

Singapore 180231

Contact No.: (65) 6333 4838

The cost is around \$202 SGD at the time of this writing.

If you have any questions, do not hesitate to ask.
